Wetaskiwin Regional Public Schools free bus status app now available

Winter weather has hit us with a vengeance this year.

Keeping tabs on the school buses operated by Wetaskiwin Regional Public Schools has never been easier, with the introduction of a free iPhone app. The app, available now at the App Store, gives users the opportunity to select their favorite WRPS routes and then receive push notifications to their iPhone if those routes are delayed or cancelled.

You can search iTunes for “Wetaskiwin Regional Public Schools Bus Status” or simply visit the WRPS website at www.wrps.ab.ca from your iPhone and you’ll automatically be prompted to connect to iTunes to download the app.

If you don’t have an iPhone, you can keep tabs on your child’s bus by visiting your school website or the Wetaskiwin Regional Public Schools website at [http://www.wrps.ab.ca/parents/bus-route-](http://www.wrps.ab.ca/parents/bus-route-status)

[status](#)

With winter weather upon us, you’ll have the peace of mind of knowing the status of your child’s school bus with current information updated regularly by Wetaskiwin Regional Public Schools Transportation Department.
